

GDD 325 Personal Webpage with Resume and Portfolio

Due Date: Before last class day

All items and details (dates, typo fixes...) subject to change – always check with instructors, and watch the deadlines for dropboxes in D2L (Learn@UW-Stout)

Overview

Create a personal online website. Create your resume. Assemble your portfolio.

This should be the starting point of you advertising yourself.

This is best done in a “permanent” way.

Free hosting is okay for this assignment,

but when it comes to getting a job, your website and your URL say a lot about you. Choose wisely.

You are expected to be working on this the entire semester. If you want feedback before it is due, ask the instructor to look at it (this can be examined multiple times).

Details

Create a personal website. You may use a free hosting website for this, but may not want to.

Minimally the site should have:

- Your name
- Your resume
 - have link to a pdf of your resume
 - please do not auto-create an html version of a word doc
- Your portfolio
 - Work you have completed that you want people to associate with you
 - Expect this will include a link to your game’s website for this course
- Other stuff about you
- Be creative, be professional

Visitors to this site should leave thinking:

Wow! That is some good stuff and a well done website. I want to hire/be like this person.

Turn-In

Turn in the URL in a text file to the appropriate D2L dropbox
