

## Probable TWO Team Option

---

### TWO Teams is official

Below is the team arrangement as of 10/12/2015

### TWO Main Project Teams (Tentative and Subject to Change)

These teams would be for the remainder of the semester (and likely into the next semester)

The main project games will be selected from those initially presented by students

They may or may not be continuations from the early prototype efforts

**Adjustments to these teams may be made** based on performance results.
