

# GDD 450 Self Presentation Assignment

**Due: September 11, 2015, 8:00 AM**

*All items and details (dates, typo fixes...) subject to change – always check with instructors, and watch the deadlines for dropboxes in D2L (Learn@UW-Stout)*

## Overview

Create a presentation that describes YOU.

Probably want to use PowerPoint, but format is up to you (must turn something into D2L).

Duration should be about 3 minutes (plus 1 minute to setup and assume no questions).

*Easiest option is: post everything online on personal website, test it and turn in copy of pptx/mp4/games before class, else you will need to plugin laptop and setup that way*

Things to consider showing:

- What are you good at?
- What experience do you have?
- What have you done in the past? (show examples)
- Why would someone want you on their team (or hire you)?
- What do you want to accomplish this semester?
- How should someone remember you?
- Anything else that reflects well on you and about you.

## For the Artistically Skilled:

You may want to include a caricature of yourself to demonstrate your art style, skill, habits...

## Grading

Grades will be based on how well you present yourself. Content of the presentation will be taken into consideration. However, grades will not be based on the quality of past work, but on how you use and organize such to present yourself. This is expected to be a *professional presentation*, so the context is one where this presentation would be acceptable to give to co-workers, or as part of an interview process. Clothing can be informal but should be considered carefully. It too should reflect what you want people to remember about you.

## Turn-In Directions

Correctly submitting your work is worth 0 points  
but if not done correctly will likely result in nothing to grade.

## Material Files to Submit

Before the due date, turn in:

PowerPoint used for the presentation  
and/or

Zip file of all materials (videos, code examples, game executables...) shown  
Including caricature if applicable

## “Hidden” Goals

Help you prepare/create/improve your personal website, resume, and portfolio  
Gain experience in presenting yourself for interviews
